

TRANSFER OF FUNDS THROUGH WESTERN UNION

One of the quickest ways to obtain cash from the UK is via **Western Union**. The process is as follows:

- Contact a family member or friend in the UK.
- Ask them to visit their nearest branch of Western Union – information of branch location is available by telephoning 0800 833 833.
- Ask the sender of the cash to let you know the Money Transfer Control Number (MTCN).

Receiving Money at a local Corfu Agent of Western Union

- Visit, with your passport or other form of valid identification, one of Western Union's local Corfu Agents – All Post Offices and some agents as listed below.
- Fill out a Receive Money form.
- For faster service quote the Money Transfer Control Number (MTCN).

Depending on the location and amount of money you are collecting, you may be asked a "test question" to verify you are the intended receiver. The test question is created by your Sender in order for you to be identified on collection of cash. There is a transfer charge payable in the UK but none in Corfu.
